

Danielle Edwards

Secretary

'I joined the DSASTX during the pandemic so the timing is fuzzy, but it has been a fun 3ish years! When our first child was born we had a post-natal diagnosis of Down syndrome. The DSASTX arrived at the hospital with baskets of information and a dear friendship was born. We grew our family, I started Blue Skies Speech Therapy, and finally when the baton was passed to me I sprinted at the chance to grow our organization for my daughter and all families like ours. My passion for inclusion, my profession as a Speech-Language Pathologist and my perspective as a parent to a teen with Down syndrome influenced my participation as Secretary of the DSASTX Board.

I love building our community and advocating for individuals with Down syndrome. I enjoy asking my family and others for input on how to meet needs and grow as these needs change. I seek to learn more from the excellent board members and families we serve."
