

Down Syndrome

ASSOCIATION
OF SOUTH TEXAS

Marty Schimeek

Immediate Past Chair

"I have served on the DSASTX Board for the past 8 years. I have a beautiful 8 year-old niece that has Down Syndrome and she is an absolute blessing from God for our family. I wanted to serve to help continue to support individuals living with Down syndrome and their families.

I work for Valero and our tradition of serving the communities that we live and work inspired me to seek this opportunity. Valero does a great job in supporting many charities throughout Texas and the U.S., not only with funding but also volunteer time!

My favorite part of being on the Board is talking with families at events such as the Walk & Stroll, as well as the Collective Palette and hearing how we can expand our reach and programming. The great families that we support are inspiring as they work to support their loved ones in all aspects of life. I am always humbled by the dedication of our families, staff, volunteers, and the board in supporting the mission of the DSASTX."
