

Cori McGhee

Board Member

This is my second year serving on the DSASTX Board. I was asked by another Board member if I was interested and the rest is history. Being on the Board of Directors and a part of this organization allows me to connect with other families and individuals with Down syndrome. My personal experience as a mother to a child with Robertsonian Translocation Down syndrome equips me with insight to provide support and guidance to other families facing similar situations.

My favorite part about being on the Board is the community connection and being able to make a difference. Being on the Board is an opportunity for personal growth and I am able to utilize my background in education to make a positive impact on others. "
