

Sarah Coulombe

Board Governance Chair

"I am blessed to be on the Board of Directors for DSASTX, and have been since March 2021 and to serve the disabilities community for the past 16 years. Working with the disability community holds a special place in my heart. Witnessing the incredible strength, resilience, and unique perspectives of individuals within this community is truly inspiring. Every day, I'm reminded of the importance of inclusivity and empathy. Together, the DSASTX Board fosters a world where diversity is celebrated, every voice is heard, and each person's potential shines brightly.

It's an honor to be a member of this Board and contribute to a more compassionate society through this meaningful work and support for individuals with Down syndrome."
